TITO

Ticket In Ticket Out Solution

UTOPIA Gaming Systems offers TITO (Ticket in Ticket out) as a feature of its gaming systems. Automated payouts reduce wait time for patrons as well as freeing up staff to focus on customer service and other operational functions. Installing TITO can reduce the labour costs on your gaming floor as there is a reduced need for manual tasks like hopper refills and hand pays.

Unclaimed tickets are stored on the system and can be easily reconciled with UTOPIA's advanced reporting module.

Easy to Use

Easy reporting and reconciliation

Reduce labour costs
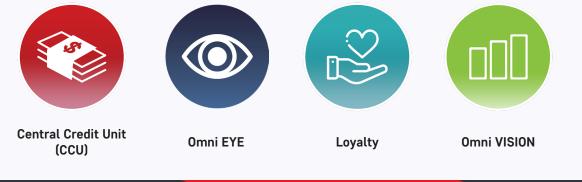

ABOUT UTOPIA GAMING SYSTEMS

UTOPIA Gaming Systems was established in 2014 and is the market leader for gaming systems in the Australian gaming market. Installed in over 1,000 venues in NSW, ACT and SA, it is the most widely used system in Australia.

UTOPIA continues to invest in the development of the Global Gaming System to ensure it meets the changing market environment and our customers' needs, while maintaining the simplicity and reliability at the core of UTOPIA's DNA.

WHY TITO?

» **Automate payouts:** Eliminate hand pays by automating payouts via a cash redemption terminal or at the cashier desk.

» **Increased staff efficiency:** Free up staff to perform other operational tasks.

» **Reduced cash handling costs:** No need to refill EGM hoppers, with all payouts made at the CRTs or cashier's desk.

» **Improve performance:** By eliminating hand-pays you can increase time on device and overall gaming performance.

» **Advanced reporting:** Generate a variety of TITO reports to better understand your customers
